1. Action Requested: None; for information only.
The Office of Security has clearly and specifically identified to the Federal Bureau of Investigation the categories of information which it has a continuing need to receive and which is legally collectible. If any FBI reporting is received which includes unwarranted information on U. S. persons, the Director of Central Intelligence will be so informed.

2. Background: The Office of Security, in accordance with Executive Order 11905, has requested that the Federal Bureau of Investigation advise this Office on matters pertaining to the following:

a. Information of a counterintelligence nature affecting present or former CIA employees and other persons who are or were similarly associated with the CIA.

SUBJECT: FBI Reporting

REFERENCE: Letter to the President from the Acting DDCI,
4 March 1977

1. On 1 March 1977 the President advised that the Intelligence Oversight Board had reported its concern to him about the legality and propriety of FBI dissemination to other agencies and departments of information derived from electronic surveillance pertaining to U.S. persons. Apparently, the Board was concerned that information about U.S. persons was being disseminated without anyone focusing on whether or not such information was foreign intelligence or counter-intelligence.

2. In referenced memorandum, the Acting Deputy Director of Central Intelligence informed the President that he was ordering the General Counsel, Inspector General and appropriate operational components to continue to reexamine our handling of all FBI reporting to ensure that it is necessary, legal and proper. Further, he advised that, for the future he intended to instruct all Agency personnel who may receive FBI reporting to alert him if such reporting appears to include unwarranted information on U.S. persons derived from any source and that every effort would be made not to retain any information on U.S. persons with which CIA has no legitimate interest.

MEMORANDUM FOR: The Director
Federal Bureau of Investigation

FROM : Robert W. Gambino
Director of Security

SUBJECT : Office of Security Requirements
for FBI Reporting

REFERENCE

B

1. Pursuant to Executive Order 11905 of 18 February 1976 and the implementation of Central Intelligence Agency (CIA) internal regulations, the CIA's Office of Security is charged with numerous responsibilities which cannot be effectively carried out without the excellent cooperation which exists between your Bureau and the Office of Security. To avoid any future misunderstanding, to provide a record of our requests, and to furnish guidance to officers of our organization, I have identified categories of information which the Office of Security has a continuing need to receive from the Bureau on a regular basis.

2. Specifically, and in accordance with Executive Order 11905, I respectfully request that the Bureau advise this Office on matters pertaining to the following:

a. Information of a counterintelligence nature affecting present or former CIA employees and other persons who are or were similarly associated with the CIA.

b. Information concerning any individual suspected and/or known to be in unauthorized possession of classified CIA intelligence information or documents.

c. Information concerning activities by any individual or group which could adversely affect the security or safety of the CIA's personnel, installations, and activities.

2. Information concerning any current CIA employee or contract employee, or any other individual similarly associated with the CIA as a contractor's employee, which would reflect adversely on that individual's suitability for continued CIA employment and/or access to CIA classified information.

3. The above categories, which are of specific interest to the Office of Security, are not intended to limit or otherwise affect existing arrangements whereby your Bureau presently provides information to the CIA's Directorate of Operations in support of the DCI's foreign intelligence/counterintelligence mission. Of course, our mutual exchange of information in connection with routine name checks pursuant to Executive Order 10450 will also remain unaffected.

4. As indicated, I am most appreciative of the cooperation extended to the Office of Security by representatives of your Bureau. It is hoped that the categories of information set forth in paragraph two above will be of some assistance in identifying those reports which are of interest to this Office. This memorandum has been coordinated with our Office of General Counsel and the Inspector General. If I can be of any assistance to you, please let me know.
